

### **Adding your player's health**

One thing that is unique about the DLS game is that players can get injured, of course injured players can not play the next game. This will hurt you if the injury is a player you rely on.

In this DLS game, you can heal players who are injured quickly, that is by using coin, but this way requires a lot of coins and if you have many points, this will heal your players very quickly.

Some steps to heal injured players are:

- Go to Team Management and faucet on player card.
- A battery icon can be seen in the lower-right corner of the screen.
- Tap on it and therefore players can reach one hundred pc health.
- Coin that you pay enough on any health player can rely on his health meter.
- Lowered the health meter, the many coins needed to heal it completely.
